

Say Bon Dia! To Barcelona!

Barcelona sits on the coast of the Mediterranean Sea.

Barcelona, Spain is one of the most beautiful cities in Europe. It has a humid subtropical climate with mild winters and hot summers.

Many buildings in Barcelona's Gothic Quarter date back to the medieval times, but if you like stunning architecture and the conveniences of modern life, it has that too!

Barcelona has many outdoor parks and plazas and is a great city to tour with a bicycle or by foot. The famous artist Gaudi designed an entire park high in the hills and you can easily spend a day wandering through his creations.

And don't forget the food! Seafood and tapas that you won't forget! Nearly every restaurant has something unusual and special on the menu.

The Barceloneta Beach was built for the Olympics in 1992 and sand was shipped in from abroad. With shopping areas, museums and theatres only steps away from the beach, why wouldn't you want to visit?
