1. Develop 3 resolutions related to your committee and show to Ms. McGavin or Mrs. Nelson
2. Select ONE resolution to bring forward to the United Nations.
3. Tell Mrs. Nelson which resolution will be submitted. This resolution will be shown to the whole group.
4. Each country will choose one resolution to sponsor and support another as a signatory. All of these nations will prepare a short speech.

Committee	Resolution	Sponsorx1	Signatory x2
Security	This committee calls upon developed counties such as Canada, USA, or China to provide 3% of their GDP to help in locations with high percentages of homelessness.		
Economic	This committee calls upon the developed nations to donate 5% to promote the creation of sustainable resources in undeveloped countries because these countries need to find a way to sustain their futures.		
Human rights	This committee calls upon developed countries to help with funding and to send over teachers to help in the process of building an all-girls school in undeveloped, African countries since girls don't have equal education opportunities.		
Admin	This committee calls upon the UN and all participating nations to lower green gas emission by 0.25% each year for the next five years by finding better, more climate friendly energy sources because the greenhouse gasses we are emitting are destroying the environment.		

Next class, we will be writing speeches to present to the United Nations about the resolution. Anyone is allowed to speak, but the sponsoring nation will speak first and explain why they have chosen to put the resolution before the United Nations.

We will then open the floor to discussion. Any nation can explain their position. When no one has further comments, we will vote.
